It's good to know you find the cards so handy to use! Thank you for using the Avery labels at the bottom of the card to identify it. When tempted to use something other than an Avery label (like a piece of regular tape), please remember that tape is thicker than an Avery label and can misalign the card reader. It can also make it possible for the card reader to reject your card before it has been used up. So remember: Avery labels only at the bottom of your card to identify it. If you need a new Avery label for your card, you can get one from the Bookstore.
